

HEREFORDSHIRE COMMUNITY PARTNERSHIP

'Public, voluntary and community stakeholders together with statutory partners working to a common goal - a commitment to producing and designing health, wellbeing and care solutions together'

Learn more: www.healthwatchherefordshire.co.uk/community-partnership

Communities

Give a voice to Herefordshire communities, listening to their opinions on issues and themes relating to wellbeing, health and care services

Support the VCS in being the link to communities and public involvement by gathering feedback on service planning & delivery

Empower the VCS to use the community voice to highlight issues which need action to improve services

VCS

Update the VCS on health & social care developments, highlighting what the sector could contribute to new health and care landscapes

Provide networking opportunities, raising awareness of Herefordshire VCS activity to promote collaboration & sustainability

Coordinate VCS representation in the health and care sector to maximise impact, involvement, and resources

Partnership Working

Help all stakeholders and partners understand the breadth, impact and value of the VCS in Herefordshire

Provide links to statutory services for two way partnership working

Present valuable VCS input and feedback on local health and care plans and strategies

Herefordshire & Worcester
