5. Contribution to the achievement of Sustainable Development

- 5.1 A Neighbourhood Plan must take into account the need to contribute to the achievement of sustainable development. This involves working to address the three separate strands of sustainability; economic, social and environmental.
- 5.2 The SEA found that the option pursued, a Plan with small scale housing allocations, which introduced the protection afforded by a settlement boundary and a Design Code, would have a positive impact upon the environmental baselines. This was in large part due to the introduction of a settlement boundary which would afford protection to the open countryside around the town.
- 5.3 The SEA assessed the NDP Objectives against the Sustainability Objectives identified in the Scoping Report and found that the NDP Objectives would not have a significant or non-mitigatable effect on any of the SEA Objectives. As such no mitigation measures were required.
- 5.4 The table below sets out an assessment of each policy of the plan and how it impacts on each of the three strands of sustainability; economic, environmental and social.

6. Compatibility with EU obligations and legislation

- 6.1 The Neighbourhood Plan has regard to the fundamental rights and freedoms guaranteed under the European Convention on Human Rights and complies with the Human Rights Act. Considerable emphasis has been placed throughout the consultation process to ensure that no sections of the community have been isolated or excluded.
- 6.2 A screening process was carried out by Herefordshire Council which determined that the Neighbourhood Plan required a Strategic Environmental Assessment (SEA). The SEA was produced by a consultant on behalf the Ledbury Neighbourhood Development Plan Group prior to the Regulation 14 Consultation and consulted on alongside the Draft Plan in late 2017.
- 6.3 The SEA was subsequently revised in January 2018 as a result of representations received and due to changes made to the draft plan.
- 6.3 It was also determined by Herefordshire council in March 2017 that the plan did not require a Habitats Regulations Assessment.
