

PRESS RELEASE

LEDBURY WAR MEMORIAL WORKS

Ledbury Town Council would like to inform residents of Ledbury that the works to make good the War Memorial are anticipated to commence in June 2023.

The contractor appointed to undertake the repair works is Ian Bishop Masonry of Tewkesbury and will be overseen by Caroe & Partners Architects and O'Brien Price Structural Engineers from Stroud.

Caroe & Partners are currently working with Ian Bishop to source samples of materials to be provided to Herefordshire Planning Officers in accordance with the Listed Building Planning Consent and once these have all been approved the contracts will be signed and work commenced.

During the works there will be some disruption to the walk way around the Memorial area, but we are working with Ian Bishop to minimise this and hopefully avoid having to close off the walk way completely during the works.

Further updates will be provided closer to the start date.

End of Press Release
